

Inicio

```
graph TD; Inicio([Inicio]) --> Peso[/Peso/]; Peso --> Altura[/Altura/]; Altura --> CalcularIMC[/Calcular IMC/]; CalcularIMC --> StatusIMC[/Status IMC/]; StatusIMC --> Fim([Fim]);
```

This flowchart illustrates the process of calculating Body Mass Index (BMI). It begins with an oval terminal node labeled 'Inicio'. An arrow points down to a parallelogram input node labeled 'Peso'. Another arrow points down to a second parallelogram input node labeled 'Altura'. A third arrow points down to a parallelogram process node labeled 'Calcular IMC'. A fourth arrow points down to a parallelogram output node labeled 'Status IMC'. Finally, an arrow points down to an oval terminal node labeled 'Fim'.
